VERSION: 1.0B
STATUS: TEST & ISSUED FOR CONS.
DATE: JUL 12 2010
POWER: INFINITE A1705-1800, PROP 7X3.5 GWS, 6A ESC
ALT. MOTOR: HXM 1811-2000, TURNIGY 2204/15
BATTERY: 2S 350MAH LIPO
SERVOS: 2X 5GRAM
CHANNELS: 3CH - RET
AUW: 5 OZ (140 GRAMS)

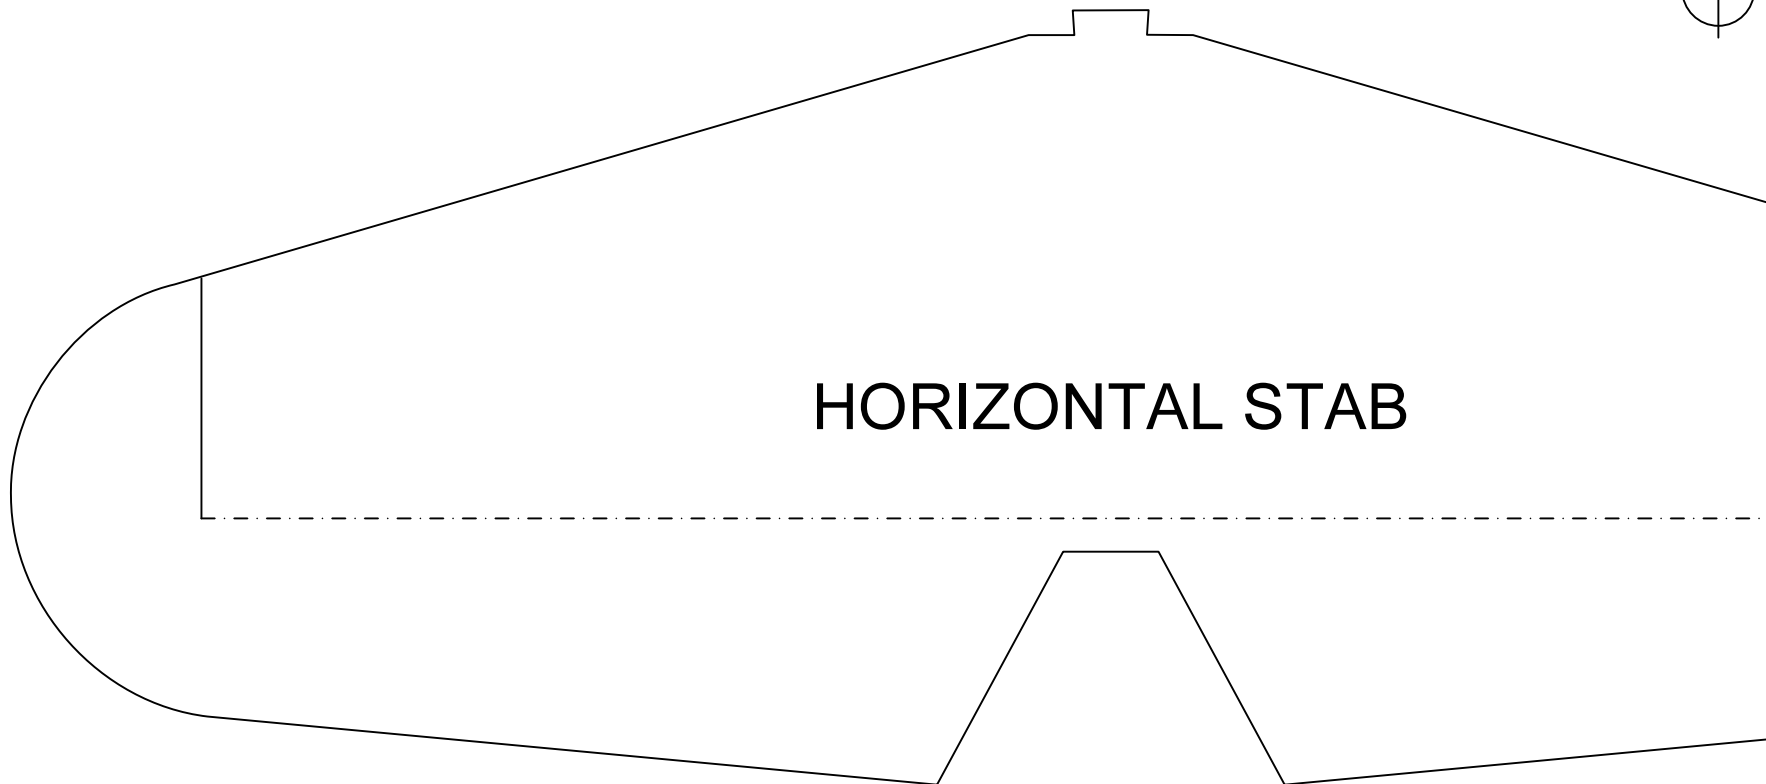

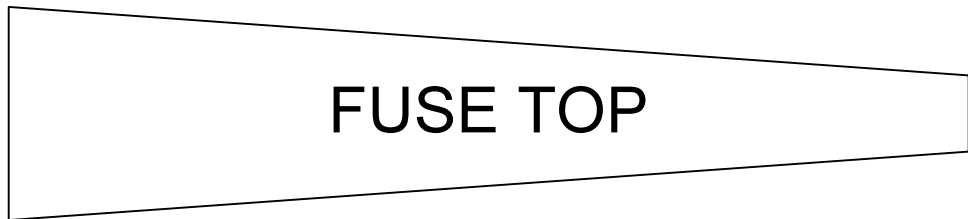

WING - BOTTOM X2

This technical drawing shows the bottom view of a wing and fuselage. The wing is represented by a large, elongated shape with a curved leading edge on the left and a tapered trailing edge on the right. The fuselage is shown as a smaller, tapered shape below the wing. The drawing includes three registration marks (crosshairs) at the corners: top-right, bottom-left, and bottom-right. The text 'WING - BOTTOM X2' is centered within the wing's outline, and 'FUSE BOTTOM' is centered within the fuselage's outline.

WING - KFM TOP STEP X2

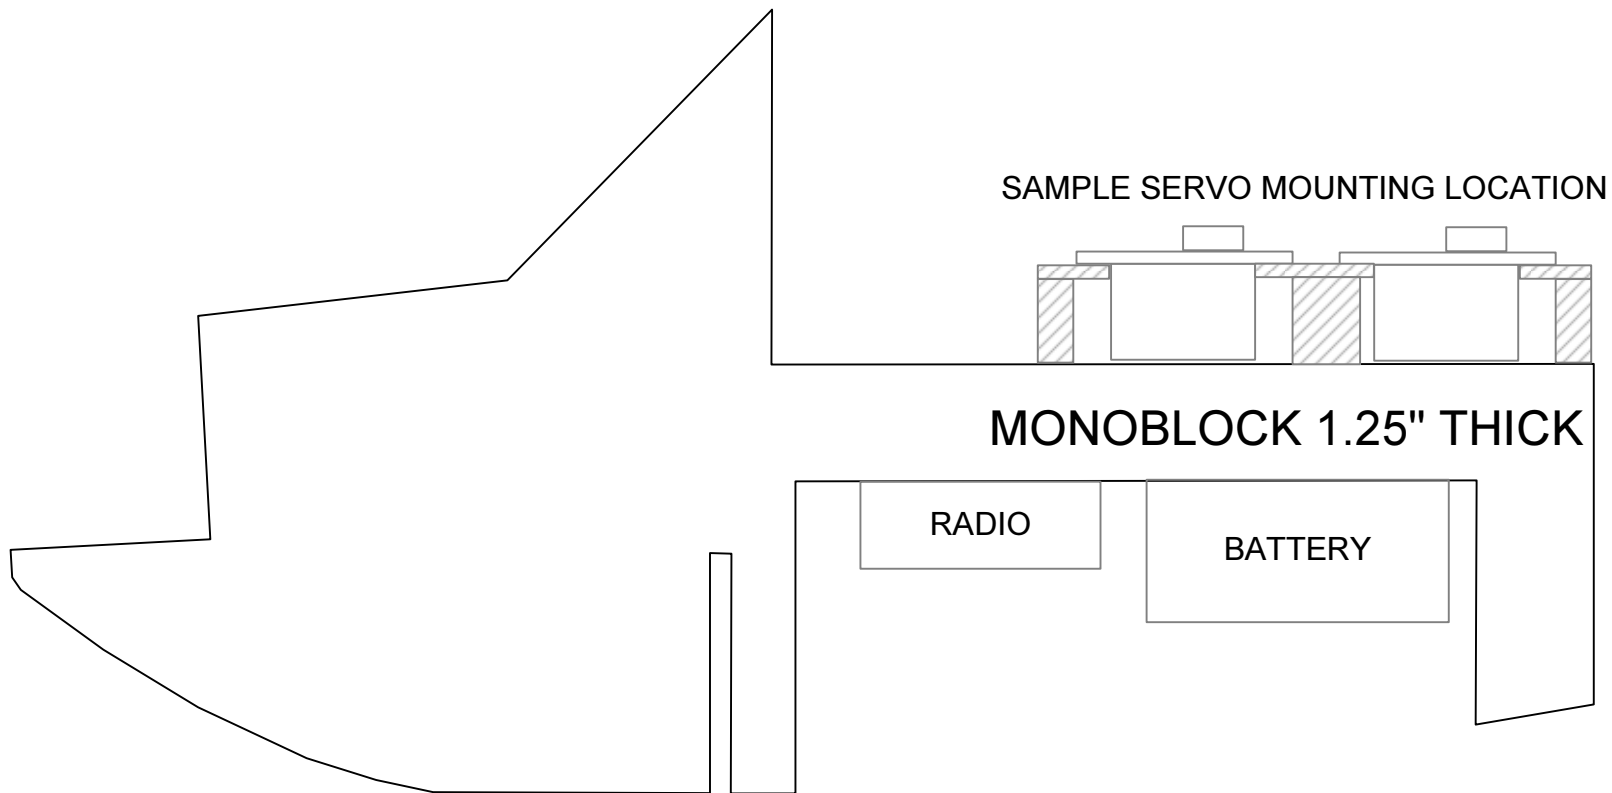

This technical drawing shows a top-down view of a wing section, labeled 'WING - KFM TOP STEP X2'. The wing is positioned on the left side of the image. To its right, a portion of the fuselage is shown, labeled 'FUSELAGE SIDE'. The fuselage section includes a rectangular window with rounded corners. The drawing is enclosed in a rectangular frame with rounded corners on the left side. Three registration marks, consisting of a circle with a crosshair, are located at the top-left, top-right, and bottom-right corners of the drawing area.
