

# SUPER Chipmunk

R/C SPORT SCALE,  
KIT No. 52  
SHEET 1 OF 2

FOR 4-CHANNEL RADIO and .45 to .60 2-CYCLE or .60 to .90 4-CYCLE ENGINES

SPAN 64" WING AREA 688 sq. in. LENGTH 53" FLYING WEIGHT 6 to 8 lbs.

DESIGNED BY.....DAVE PATRICK  
ENGINEERED BY.....W. KRONBERGER & MAC McVICKAR  
PLANS.....MAC McVICKAR, W. KRONBERGER, JIM NEWMAN AND JACK BUTLER  
TEST FLYING.....DAVE PATRICK  
CONSTRUCTION PHOTOGRAPHS BY.....W. KRONBERGER  
.....PETE FRANKENTHAL, DON ADAMS, AND RALPH CATLIN

### FUSELAGE COMPLETED MODEL (With left side removed for clarity)

ITEMS MARKED **NI** ARE 'NOT INCLUDED IN THE KIT' see Booklet for ADDITIONAL ITEMS list.

**ABOUT THE WOOD IN THE KIT**  
We strive to supply good quality materials in your kit. Wood parts are inspected with regard to the function they will serve. If an imperfection is spotted in a scrap corner of a die-cut sheet and doesn't affect actual parts, the sheet is considered acceptable. Also, internal stresses in wood are relieved as it is cut into parts. These relieved stresses may cause some parts to bow. Bows in wood parts (such as leading edges) readily straighten out as they are glued into a structural unit.

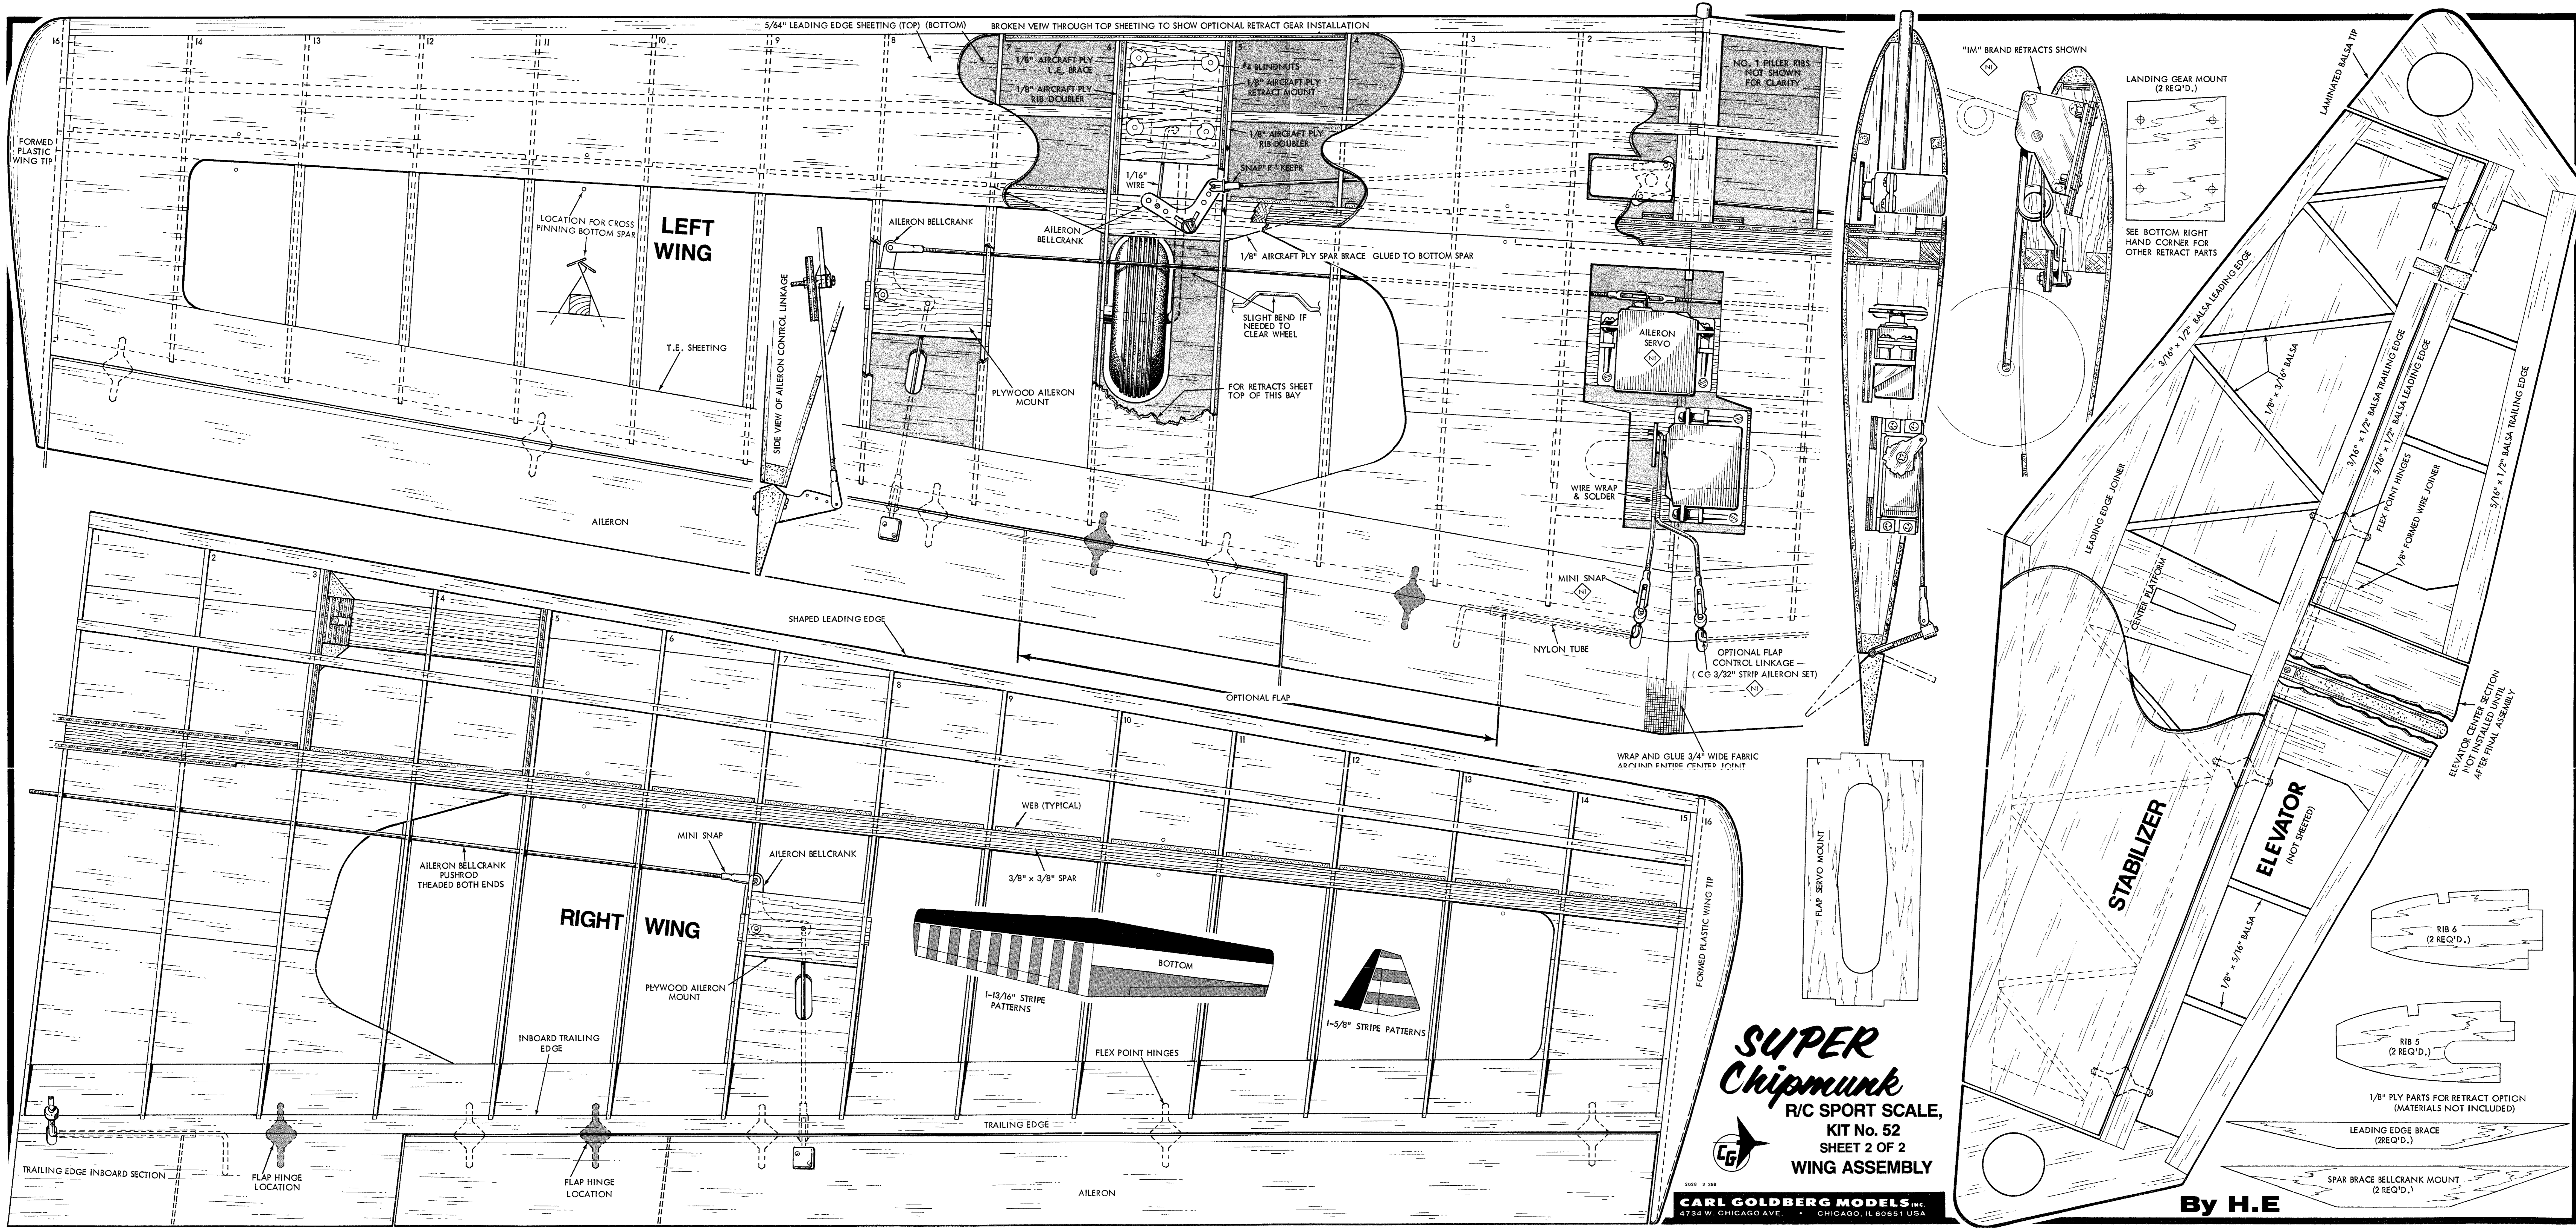

PUSHRODS MUST OPERATE CONTROLS WITH EXTREMELY LIGHT PRESSURE. THEY MUST MOVE FREELY, WITHOUT BINDING.

OPTIONAL: "SAFETY" MINI-SNAP WITH BAND OF FUEL TUBING

**HOW CAREFUL MUST I BE WHEN BUILDING PARTS OVER THE PLAN?**  
The paper the plan is printed on can expand or contract slightly with changes of temperature and humidity. Because of this, a pre-formed part such as the ratched wing trailing edge may not match exactly with the plan. This is no cause for concern. Small deviations in the outline or size will not noticeably affect the flight performance of the model.

**WARNING** - Because of possible dangers in the operation of radio controlled model aircraft, great caution should be exercised to prevent personal injury or property damage. Observe the potential hazard of the turning propeller and the flammable fuel. Fly only in areas considered safe for R/C. The model should be under the control of a licensed flyer or instructor at all times.
